

26 DEC 1972

Commander  
Naval Intelligence Command  
2461 Eisenhower Avenue  
Alexandria, Virginia 22314

Dear Sir:

STATINTL In a telephone conversation on 22 December 1972 between [redacted] USN, NOFIO, National Security Agency, and Dr. [redacted] of the faculty of the Intelligence Community Information Science Training Program, we requested a tour of OSIS, MOSIC, and briefings on modern information handling techniques in use at your Suitland installation.

STATINTL Thirty students and five instructors, all with TS/SI-TK clearance to be confirmed to you by message before the visit, will be present. The tour should begin at 0900 and end at 1200 on Thursday, 1 February 1973. The students, from CIA, NSA, DIA, and several military commands, are members of class 1-73 of the Survey of Intelligence Information Systems Course. [redacted] the Course Chairman, may be reached at [redacted] as details of the visit are developed. If he is not available when you call, please phone [redacted]

Sincerely,

[redacted]  
for HUGH T. CUNNINGHAM  
Director of Training
